

# Solar Connector

## Female and male cable coupler MC4

Unit: mm

### 01 | APPLICATION:

KUKA solar connectors are made of high-quality weather-resistant materials to ensure long-term reliability.

They can match cables from 2.5 mm<sup>2</sup> to 10 mm<sup>2</sup> and can be widely used in different applications. Low contact resistance and high current transmission capacity ensure high product efficiency. The connector has an IP68 waterproof rating and can be used in a wide operating temperature range of -40 °C to 85 °C.
